

THERMODYNE

SAVEMAX

**GAS FIRED
STEAM BOILERS**

Environment Friendly
THERMODYNE

Most efficient designs

- **Wet-back construction**
- **High-efficiency - 92%**
- **Non polluting**
- **Fine combustion control**
- **PNG/LPG options available**

Capacity: 1 to 15 TPH, Working pressure: Upto 21 Kg/cm²

Customized products. Accessories shown may not be a part of standard supply

Imported, most advanced Gas Burners

- 2-Stage & Progressive-modulation
- ECR options available
- High turndown ratio

- Precise air to fuel ratio control
- Conform EN676 European standards
- Low NOx, high efficiency

THERMODYNE ADVANTAGE 21 YEARS OF EXCELLENCE

We have been serving the industry for over 21 years, constantly adapting our products to the dynamics of energy efficiency & environmental norms, with over 1000 successful installations in India & abroad

Enhancing Energy Efficiency
